## Summary

Final year Information Technology student with hands-on experience building scalable platforms. Experienced in designing APIs, authentication systems, and end-to-end web and mobile workflows. Built and pitched production-ready platforms including a PropTech SaaS and AI-integrated web applications.

## Experience

**Intern – Full Stack Development | EDAINFRONT** Jun 2025 – Jul 2025

- Built a membership portal using React and Node.js/Python FAST APIs to manage tiered memberships for a charitable trust.
- Delivered responsive registration, payment, and profile workflows used across web and mobile.
- Improved backend API response efficiency through optimized query handling and structured routing.

**Hackathon Experience** 2024 – 2026

- Led **4+ cross-functional teams** in national and institute-level hackathons, driving system design, task execution, and pitch delivery, and won a **₹10,000 cash prize** at Envision Hackathon (SSN Engineering College) for building a privacy-first AI adaptive learning platform.

## Projects

**Nestorix** — Django, Python, React Native, React, SQL

- Architected a full-stack SaaS platform enabling tenants to raise digital maintenance requests and property owners to manage contractor workflows.
- Implemented structured backend logic for request prioritization and workflow automation.

**AI-Powered Adaptive Learning Platform** — Next.js, Convex, Gemini API, Web Crypto

- Developed a **privacy-preserving adaptive learning system** that personalizes content in real time using LLM-driven transformations.
- Built **E2EE data pipelines ( client-side encryption)** with zero plaintext storage and local PDF processing.
- Designed **anonymized real-time analytics dashboard** to visualize aggregate student attention trends.

## Skills

**Programming Languages:** Java
**Frameworks:** React, Node.js, Django, React Native
**Tools:** Git, VS Code, Android Studio
**Database:** SQL, Firebase
**Languages:** English, Tamil, Hindi, Kannada, Telugu

## Leadership & Responsibilities

**Vice Chair – IEEE Consumer Technology Society (CTS) | Student Chapter**

- Supported planning and execution of technical events and workshops for student members

## Education

**2023 – 2027 B. Tech in Information Technology(3rd year)** RMK Engineering College, Kavaraipettai — CGPA: 7.04
**2022 – 2023 Class 12 (CBSE)** Ryan International School, Bangalore — 60.06%
**2020 – 2021 Class 10 (CBSE)** Sri Chaitanya Techno School, Bangalore — 77.40%

## Certifications

**Tata Group Data Analytics Job Simulation** – Forage — Jan 2026
**Artificial Intelligence Foundation (Proctored)** – Infosys Springboard — Feb 2025
**Introduction to Internet of Things** — NPTEL (IIT Kharagpur)( Elite certification) — Oct 2025
